

RETRACTION NOTE

DOI: 10.36922/jse.corr090225

Published online: October 16, 2025

Zhang Y, Huang J, Mao Q. Finite-difference reverse-time migration based on anisotropic pure qp wave equation in TTI media. *Journal of Seismic Exploration*. 2024;33(1):21–40.

This article is retracted at the request of the authors and with the approval of the Editor-in-Chief of *Journal of Seismic Exploration*. The article was originally published while the journal was still under the management of the former publisher, prior to its acquisition by AccScience Publishing.

The reason for this retraction is that the same article was inadvertently published twice due to an editorial oversight in the former publisher's workflow: first in Volume 33 Issue 1 (2024) and again in Volume 33 Issue 6 (2024). To correct this error and ensure the integrity of the scholarly record, the version published in Volume 33, Issue 1 is hereby retracted. The version published in Volume 33 Issue 6 remains the version of record and should be cited accordingly.

All authors are aware of this issue and agree to this retraction.
